Product highlights

Real Flat picture tube

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

Contrast & Sharpness Control

Contrast and Sharpness Control for better image control

Stereo sound

Plays DVD, DVD+R and DVD+RW

Plays CD-RW and MP3-CD

Picture CD Playback (jpeg)

A Picture CD contains digital still pictures in JPEG format. Most Philips DVD players and recorders support playback of Picture CDs – both home created discs as well as ones from photo shops.

Auto Picture

Auto Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program.

Auto Sound

Auto Sound provides pre-defined sound settings for ultra bass, bass, treble and balance for the optimum entertainment experience.

Rear Audio/Video input/output

Mono audio and video input and output connectors are provided on the back of the set.
